You dig the money out of your pocket promising you'll work a few extra hours this week to make up the difference — besides, that phone bill can wait.. But music is a different matter And often it is taken for granted One big reason may be that music integration technology isn't where it should be.. No sense disappointing yourself with a sluggish game right off the bat, let's see what you can do to ensure your machine runs the game at optimum efficiency.. Lower texture detail? God no, I want to see everything!Ahh, here we go Turn off music.. If that's true, then who's to blame? The ease in which we allow ourselves to turn in-game music off, and the ease in which game designers allow us to turn it off, creates an interesting situation for game developers and gamers alike, who must ask themselves: what priority have I put on having high-quality game music?There's no doubt that audio has a large role to play in a multimedia experience like a computer game.. And often it is the music that is the first to go Detractors will say that it doesn't matter anyway because in-game music is often annoying and repetitive.. Installing is a breeze and you are tempted to double-click that new little icon on your hard drive and start playing, but you remember that your RAM is dangerously close to the minimum requirements for the game.. Helpful customer service! Mac App Store is the simplest way to find and download apps for your Mac.. Unlike in film where the music changes according to the action on the screen, game music is often just looped tracks — and who wants to hear the same 45 seconds of music over and over and over and over?But again, where does the onus lie when it comes to ensuring that we continue to progress in the technology that will allow music to interact more effectively with games?Who should lead the charge? Game developers? Gamers themselves who could demand much more? How about game music composers?Who knows?Not me surely, so I tracked down a couple of game music composers to get their views on the state of the video game music industry..
